Bauer, Daniel J. *Estimating Multilevel Linear Models as Structural Equation Models*, No. 2, p. 135.

Bonett, Douglas G. *Statistical Inference for a Ratio of Dispersions Using Paired Samples*, No. 1, p. 21.

Bradlow, Eric T. Comment on *Comparing Harm Done by Mobility and Class Absence: Missing Students and Missing Data*, No. 3, p. 289.

Brown, C. Hendricks. See Dagne, Getachew A.

Candel, Math J. J. M. *Performance of Empirical Bayes Estimators of Level-2 Random Parameters in Multilevel Analysis: A Monte Carlo Study for Longitudinal Designs*, No. 2, p. 169.

Cheadle, Allen D. See Raghunathan, Trivellore E.

Dagne, Getachew A. *Bayesian hierarchical Modeling of Heterogeneity in Multiple Contingency Tables: An Application to Behavioral Observation Data* No. 4, p. 339.

De Boeck, Paul. See van den Noortgate, Wim.

Diehr, Paula K. See Raghunathan, Trivellore E.

Dunn, Michelle C. *Comparing Harm Done by Mobility and Class Absence: Missing Students and Missing Data*, No. 3, p. 269.

Frank, Kenneth A. See Pan, Wei.

Garrow John R. See Dunn, Michelle C.

Grilli, Leonardo. *Alternative Specifications of Multivariate Multilevel Probit Ordinal Response Models*, No. 1, p. 31.

Harwell, Michael. *Summarizing Monte Carlo Results in Methodological Research: The Single-Factor, Fixed-Effects ANCOVA Case*, No. 1, p. 45.

Howe, George W. See Dagne, Getachew A.

Johnson, Matthew S. *Using Data Augmentation and Markov Chain Monte Carlo for the Estimation of Unfolding Response Models*, No. 3, p. 195.

Johnson, Matthew S. See Sinharay, Sandip.

Junker, Brian W. See Johnson, Matthew S.

Kadane, Joseph B. See Dunn, Michelle C.

Koh, Kim. *Review of Sharon L. Weinberg and Sarah K. Abramowitz's Data Analysis for the Behavioral Sciences Using SPSS*, No. 1, p. 83.

Lee, John C. K. See Lee, Sik-Yum.

Lee, Sik-Yum. *Maximum Likelihood Estimation of Nonlinear Structural Equation Models with Ignorable Missing Data*, No. 2, p. 111.

Li, Heng. *The Resolution of Some Paradoxes Related to Reliability and Validity*, No. 2, p. 89.

Liu, Xiaofeng. *Statistical Power and Optimum Sample Allocation Ratio for Treatment and Control Having Unequal Costs per Unit of Randomization*, No. 3, p. 231.

McDonald, Roderick P. *Review of Niels G. Waller and Paul E. Meehl's Multivariate taxometric procedures: Distinguishing types from continua*, No. 1, p. 77.

Meulders, Michel. See van den Noortgate, Wim.

Pan, Wei. *A Probability Index of the Robustness of Causal Inference*, No. 4, p. 315.

Raghunathan, Trivellore E. *Combining Aggregate and Individual Level Data to Estimate an Individual Level Correlation Coefficient*, No.1, p.1.

Rampichini, Carla. See Grilli, Leonardo.

Ree, Malcolm J. *Review of John Fox's An R and S-Plus Companion to Applied Regression*, No. 1, p. 73.

Rubin, Donald B. See Zhang, Junni L.

Seier, Edith. See Bonett, Douglas G.

Sinharay, Sandip. *Calibrating Item Families and Summarizing the Results Using Family Expected Response Functions*, No. 4, p. 295.

Song, Xin-Yuan. See Lee, Sik-Yum.

Taub, Gordon E. *A Review of ActivStats For SPSS Integrating SPSS Instruction and Multimedia in an Introductory Statistics Course*, No. 3, p. 291.

van den Noortgate, Wim. *Cross-Classification Multilevel Logistic Models in Psychometrics*, No. 4, p. 369.

van der Linden, Wim J. *Some Alternatives to Sympson-Hetter Item-Exposure Control in Computerized Adaptive Testing*, No. 3, p. 249.

Wainer, Howard. Editor's Foreword to *Comparing Harm Done by Mobility and Class Absence: Missing Students and Missing Data*, No. 3, p. 267.

Wiberg, Marie. *An Optimal Design Approach to Criterion-Referenced Computerized Testing*, No. 2, p. 97.

Williamson, David M. See Sinharay, Sandip.

Winkens, Bjorn. See Candel, Math J. J. M.

Witarsa, Murlita P. See Koh, Kim.

Zhang, Junni L. *Estimation of Causal Effects via Principal Stratification When Some Outcomes are Truncated by "Death"*, No. 4, p. 353.

Keyword Index

(Volume 28)

analysis of covariance 1:45
association 4:339
automatic item generation 4:295

Bayes estimators 2:169
Bayes Risk 2:169
Bayseian inference 4:339
Bayseian methods 4:295
bounds 4:353
Box-Scheffé test 1:21

causal effect 4:353
causal inference 4:315
censoring by death 4:353
